

Dear Colleagues and Friends,

On behalf of the Organizing Committee, it is my great pleasure to welcome You to Sarajevo and to the 5th Congress of Ophthalmology in Federation Bosnia and Herzegovina and XIVth Congress of the South-East European Ophthalmological Society (SEEOS). The Congress is scheduled 6-8 October 2017, in Hotel Radon Plaza, Sarajevo, Bosnia and Herzegovina.

Since long time passed from our last congress, we have now the chance to exchange experience with colleagues from our country and colleagues from abroad, as well. This year with us will be representatives of 14 countries from South-East European Ophthalmological Society (SEEOS) - from Italy and Slovakia in the north-west to Ukraine in the east and Cyprus in the south. This will be opportunity to celebrate ICO membership of SEEOS.

Ophthalmology association in Federation Bosnia and Herzegovina did not organize any congress for long time period and now all conditions are settled and we are inviting You to be part of this big event for us and to spend time together for experience exchange, to achieve new knowledge and to have chance to meet old friends and have chance to meet some new.

The congress program is broad and will discuss themes from different aspects in ophthalmology such as anterior segment, cataract, glaucoma, uveitis, refractive surgery, imaging, paediatric ophthalmology, eye posterior segment, medical retina and diabetic retinopathy, eye trauma and tumors and neuroophthalmology. In the congress, there will be oral presentations, poster sessions and plenary sessions, as well. New guidelines, new evidence-based researches and new technologies are shaping our everyday practice and management of our everyday patients.

„Time to change“ should be light-line of our meeting and all of this will be discussed in our congress. We would like to express our thanks to the pharmaceutical industry for their generous support, for their excellent arrangements in all aspects of the Congress. Without their help this event will not be possible to realize.

Official web page of the Congress: <http://ophthalmology2017.com/>

We welcome You to be a part of this productive and memorable event for us.

Welcome to Sarajevo!!

Prof. Suzana Pavljašević, MD PhD
President of Ophthalmology Association
in Federation Bosnia and Herzegovina
